

Edgefield has provided me with many opportunities to develop my potential and leadership skills. My active participation in the Taekwondo CCA helped to improve my concentration, increased my self-discipline, and developed perseverance within me. These traits enable me to overcome any challenges and difficulties I encounter in life.

After my GCE O level examinations, I decided to pursue an International Baccalaureate (IB) Diploma. This programme honed my critical thinking and research skills to better prepare for the rigours of academic research at university. I am currently in my 3rd-year of studies at the Singapore Management University (SMU).

My four-year journey in Edgefield has instilled in me the courage and confidence to try new things. I never imagined that one day I would attain a Taekwondo Black Belt (2nd DAN) and win four medals in the Inter-Schools' TKD competition, including a gold medal at the National Taekwondo Poomsae Championship. I also received the Colours Awards from the Singapore Schools Sports Council for three consecutive years and a National Youth Achievement Award – Bronze Medal. These achievements were made possible because of the nurturing teachers at Edgefield, who inspired and helped me to develop my potential to the fullest!

Lim Hui Shi, Nicole

Class of 2015

Third year, School of Business Management,
Singapore Management University (SMU)
